Hi Emily,

The electronic permits/comments should be stored on the H: drive. Attached are the documents that I found in my email, but I think they should also be on the H drive ( I don't have access to the H drive to confirm).

Let me know if you need anything else from me.

Thanks!  
Mary Cate

Good morning!

I'm handling (for permitting) a FOIA request for US Steel, January 2016-present, for their 3 facilities (Clairton, Irvin, and Edgar Thompson)- see attached. The requester is asking for documents responsive to "any CAA permitting files, including permit applications and permits." Enforcement is taking the lead and Zelma is talking with them re: emails and the file room. I'm just taking a look at what's on the h-drive. I wanted to check in with both of you to make sure you don't have any responsive documents saved elsewhere, other than the h-drive, such as on your f-drive, desktop, or paper files in your cubes.

Let me know- thank you!  
Emily
